

Our Grajewo - a model of community revitalization management using the experiences of Turin

Project's main goal: Development of Grajewo's socio-economic functions through the creation, testing and implementation of an innovative solution on community revitalization management in cooperation with the Italian partner, City of Turin.

The project is compatible with the project implemented under the Model Urban Revitalization competition co-financed from the Operational Program Technical Assistance 2014-2020 and from the state budget.

The project involves an innovative solution of co-management of the revitalization process and will consist of such components:

- a) joint management of the revitalization process that includes the social sector
- b) focused support of social economy entities
- c) a model of social services provided by social economy entities aimed at broad involvement of the residents into revitalization processes

Project's partners:

- NGO's Support Center
- City of Grajewo
- Comune di Torino / City of Turin

Project's implementation period: 01.10.2018 – 30.09.2021

Project's budget: 1 236 423,60 PLN.
